

# Astrobiology Teacher Field Institute: YELLOWSTONE 2010

# Goals of Astrobiology Teacher Field Institute:

- \* Involve educators in the development and implementation of astrobiology K-12 and informal curriculum projects
- \* Involve teachers in authentic field research
- \* Train teachers on the use of new educational technologies
- \* Give teachers an opportunity to meet and interact with SESE faculty, researchers and students
- \* Create a Teacher Ambassador Program at ASU

Teachers interacted with scientists – Ariel Anbar (ASU), Jack Farmer (ASU), Steve Ruff (ASU) and Eric Boyd (Montana State University) - as they explored several hot spring areas.

Steve Ruff

Jack Farmer  
Sandy Dueck

Geoffrey Bruce – media specialist

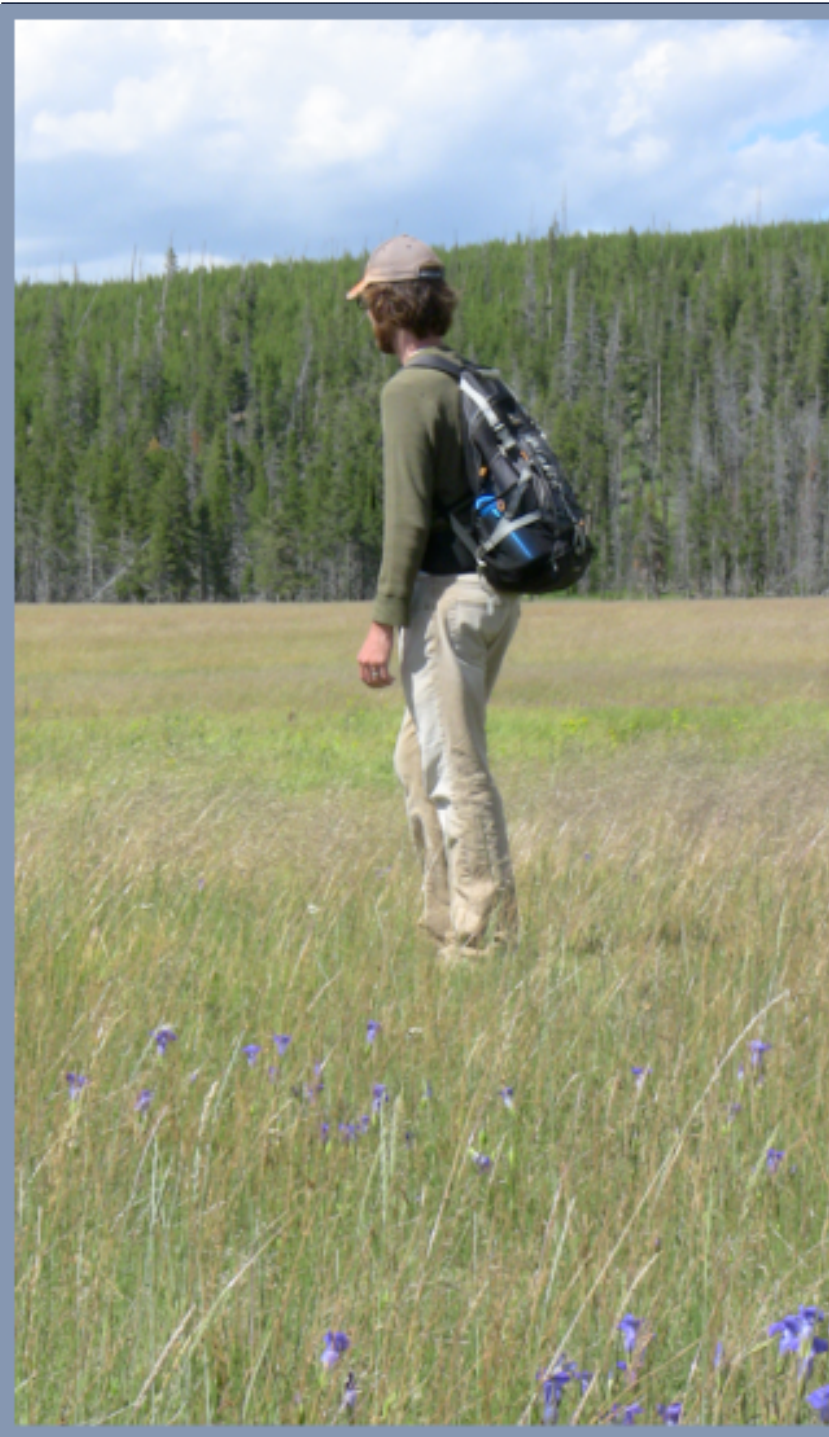

PI – Ariel Anbar

## What's next?

- \* Continue to involve this group of teachers in VFT and ambassador program
- \* Think about future field opportunities (and Lab opportunities?)
- \* Involve teachers in website development for EPO
